ABOUT US

O-INSIGHTS™

- At Conexao, our vision is to create products to help buildings and cities become smart, secure and sustainable for their people.

- We believe that technology and automation can co-exist with sustainability, and our endeavor is to be carbon neutral as we continue to design solutions that have been extremely well received globally.

- The solutions are configured to cater to a wide gamut of verticals like Pharmaceutical, Commercial, Education, Datacenters, Hospitality, Financial, Communities, Airports, Resorts, Facility Management Companies, Mining, Transportation, Retail, Warehousing, Industrial, Healthcare and Smart City among others. Our products complement the sustainability and digital transformation goals for our clients while ensuring innovative technology.

- Headquartered in Goa, India, Conexao has deployed products in 20+ countries and counting, in addition to a robust and growing global distribution and partner network.
