CORE ENHANCEMENTS

We continue to refine and expand capabilities working toward our goals for 2022. Below some highlights of recent feature enhancements.

- **Product Detail Page Enhancements** - Images are now predominant in the overview section and supporting text is smaller. Selecting an image creates a gallery view with text.
- **Software licensing center updated** - Users can filter by additional fields within the licensing center to find their purchased content more easily.
- **Security Fixes** - Security fixes in preparation for future releases like hardware and software trials.

ABOUT US

Tridium is a world leader in business application frameworks — advancing truly open environments that harness the power of the Internet of Things. Our products allow diverse monitoring, control and automation systems to communicate and collaborate in buildings, data centers, manufacturing systems, smart cities and more. We create smarter, safer and more efficient enterprises and communities — bringing intelligence and connectivity to the network edge and back.
