

NEWS RELEASE

Tridium's 2006 Niagara Summit Adds New Sponsors and Exhibitors

RICHMOND, VIRGINIA, January 11, 2006-Tridium, Inc. announced today that several new companies and organizations are participating as sponsors and exhibitors at its 2006 Niagara Summit taking place April 30th through May 3rd at the Saddlebrook Resort in Wesley Chapel, Florida.

Contemporary Controls, Control Solutions, Distech Controls, Dust Networks, Gemini Integration Services, Honeywell, Invensys, Kele, STAEFA Control Systems, NovusEdge, Marathon Technologies, Reliable Controls, WattStopper and Viconics are the latest companies who will be joining many others at this bi-annual event. For more information on these companies, go to: www.niagarasummit.com.

In addition to the companies mentioned above, the following publications have joined as the event media sponsors, Automated Buildings, Energy & Power Management, Engineered Systems, M2M Magazine and Remote Site & Equipment Management.

"We are delighted these companies and media partners are participating. The Niagara Summit is the perfect venue for companies wanting to get directly involved with this truly dynamic audience, said Marc Petock, Tridium's Director of Marketing. This year's theme-***Connecting Minds and Machines***-highlights the fact that Niagara has emerged as the accepted choice for integrating multiple systems and devices into a unified systems across a wide variety of applications from building automation, energy management, convergence retailing, and telecommunications, to lighting, security and M2M."

The 2006 Niagara Summit *Connecting Minds and Machines*

Tridium's 2006 Niagara Summit is an open exchange and conference focusing on Niagara-based ideas, techniques and developments, the Niagara Summit brings together integrators, end-users, consultants, OEM manufacturers, developers and resellers--- the Niagara Community--- to share experiences, hone their skills, share knowledge and network with peers.

The 2006 Niagara Summit will include general sessions, keynote speakers and interactive workshops that focus on the latest developments in creating device-to-enterprise solutions, M2M applications, Internet-enabled products and distributed real-time Internet-based automation systems. Sponsors and exhibitors will have the opportunity to network with the best and brightest individuals developing, installing and using Niagara-Framework based applications as well as industry leading systems integrators and end users.

Additional information regarding the Niagara Summit can be found at: <http://www.niagarasummit.com>.

About Tridium, Inc.

Tridium, a global software and technology company, is the inventor of the Niagara Framework®, a software framework that integrates diverse systems and devices - regardless of manufacturer, or communication protocol - into a unified platform that can be easily managed and controlled in real time over the Internet using a standard web browser. Niagara is an extensible platform that supports the rapid development of a wide range of Internet-enabled products and device-to-enterprise applications.

Manufacturers adopt the Niagara Framework technology to move their products to the web, reduce development time, migrate legacy systems, develop new service offerings, and open up new markets. System integrators use Niagara products to provide true open solutions without regard for specific protocols, products or technologies. Today, there are over 50,000 instances of Niagara operating in over 6,000 installations worldwide in applications that include: energy management, building automation, M2M, telecommunications, security automation, lighting control, maintenance repair operations (MRO), service bureaus, industrial automation, convergence retailing and total facilities management – all realizing improved operational efficiencies, reduced costs and greater returns.

Tridium markets its products to value-added resellers, original equipment manufacturers and a network of Tridium Systems Integrators. The company is an independent business entity of Honeywell International Inc. Additional information about Tridium is available at www.tridium.com.
