

2008 Niagara Summit Adds New Sponsors and Exhibitors Attendee registration is brisk

RICHMOND, VIRGINIA, February 4, 2008- Tridium, Inc. today announced that its 2008 Niagara Summit has added several new companies and organizations to the growing list of sponsors and exhibitors participating at the event. The Niagara Summit takes place on May 4 through May 6 at the Saddlebrook Resort in Wesley Chapel, Florida.

As of today, the following companies are taking part: Constellation Energy, Honeywell, Lynxpring, CSI³, Distech Controls, Gemini Integration, Siemens, Loytec Americas, Reliable Controls, Building LogiX, Kele, SysMiK GmbH Dresden, Viconics, Wattstopper/Legrand, Cimetrics, Engenuity Systems, Marathon Technologies Atkinson Electronics, Contemporary Controls, E-MON, ONICON, Fieldserver Technologies, Facility One, RLE Technologies, Architectural Energy, Eagle Technology and HID.

In addition to these companies, several industry publications and organizations are also supporting the event including Automated Buildings, Mission Critical, Security Magazine, Engineered Systems, M2M Magazine, Today's Facility Manager, Remote Site & Equipment Management, Sustainable Facility, START-IT, CABA, Realcomm, oBIX and CGNA.

"We are extremely excited to have these fine companies and organizations participating as sponsors and exhibitors this year said Marc Petock, director, global marketing and communications for Tridium. "The Niagara Summit brings together the right mix of industry professionals and practitioners deploying automation and device-to-enterprise solutions built around open, interoperability, integration and connectivity".

"Attendee registration has also been brisk, added Petock. "We are seeing a wide range of Building Owners, Engineers, Developers, System Integrators, Facility Managers, IT Professionals, Consultants, Manufacturers, Environmental Executives and Resellers signing up to attend. In addition, we are seeing a nice turnout of international attendees."

About The 2008 Niagara Summit

The 2008 Niagara Summit is an open exchange and conference that focuses on interoperability, integration and connecting diverse systems and smart devices.

This year the Summit is all about "Carrying the Vision Forward" from the enabling capabilities of Niagara^{AX}®, oBIX and the soon to be released Sedona Framework™, to wireless, M2M, industrial, energy and residential applications, attendees will encounter the ultimate educational experience, in-depth presentations and peer brainstorming that provides thought provoking ideas and visionary insight for device-to-enterprise applications and automation infrastructure. The Summit focuses on both the business value and technical value automation infrastructure technology and device-to-enterprise integration solutions are delivering to today's marketplace. In addition, a number of internationally recognized experts will share their application solutions and insights.

Full conference details, exhibitor and sponsorships opportunities and registration information can be found at: www.niagarasummit.com.
