

**FOR IMMEDIATE RELEASE**

**Tridium Expands Niagara<sup>AX</sup> Certification Program  
*Appoints first remote Certified Training Partner***

**RICHMOND , VIRGINIA August 1, 2006** —Tridium, Inc. today announced that Cochrane Supply and Engineering of Madison Heights, Michigan, an authorized Vykon Distributor, has qualified as the first remote Niagara<sup>AX</sup> Technical Training Center .

Meeting Tridium's Niagara<sup>AX</sup> technical certification requirements for delivering and administering Niagara<sup>AX</sup> Certification, Cochrane Supply and Engineering is now authorized to provide training to Systems Integrators and Contractors in the building automation, energy services, power/utility, and industrial sectors and assist them in gaining the level of technical expertise necessary to effectively and efficiently design, engineer, and program projects using the Niagara<sup>AX</sup> Framework.

"We are very excited on becoming a Niagara<sup>AX</sup> Certified Trainer especially as interest and demand for the Niagara<sup>AX</sup> is accelerating and we continue to install more applications, said Scott Cochrane, president of Cochrane Supply and Engineering. "Helping to ensure the complete understanding of Niagara<sup>AX</sup> underscores our ongoing commitment to make certain that customers obtain the highest value possible from their deployments of the software."

"We are delighted to have Cochrane as our first Certified Training Partner", said Marc Petock , Director of Marketing for Tridium. "Having them as a Technical Program trainer allows us to get more users proficient on the Niagara<sup>AX</sup> platform and provides us with the opportunity to expand our training programs".

**About Vykon**

The Vykon suite of products and enterprise applications is powered by the Niagara Framework, and targets specific applications needs in key markets served by Tridium. Vykon Building , Vykon Energy and Vykon Security enable facilities managers, building owners, energy service companies, and systems integrators to integrate proprietary and otherwise incompatible products into a unified enterprise solution. This allows personnel using a standard web browser to measure, manage and control a wide variety of facilities, security, and energy applications from anywhere in the world.

Vykon solutions are available worldwide through a network of distributors, systems integrators and value-added resellers. For a complete listing, please refer to [www.tridium.com/how2buy/vsi.asp](http://www.tridium.com/how2buy/vsi.asp).
