

FOR IMMEDIATE RELEASE

**Tridium Certifies Technical Training Center
*Environmental Systems Inc. to Teach Niagara^{AX} Technical Certification Program***

RICHMOND , VIRGINIA January 22, 2007 —Tridium, Inc. today announced that Environmental Systems Inc. (ESI) of Waukesha, WI, an authorized Vykon Distributor, has qualified as a remote Technical Training Center.

Meeting Tridium's technical certification requirements for delivering and administering Niagara Certification for both the R2 and AX releases of the software, ESI is now authorized to provide training to Systems Integrators and Contractors in the building automation, energy services, power/utility, and industrial sectors. ESI will assist them in gaining the level of technical expertise necessary to effectively and efficiently design, engineer, and program projects using the Niagara Framework.

"We are very excited on becoming a Technical Training Center for both R2 and AX training. With interest and demand for Niagara-based products accelerating, ensuring a complete understanding of both Niagara R2 and AX is critical for our customers," said Ernie Allen, Director of Corporate Education. "Becoming a Technical Training Center underscores our ongoing commitment to make certain that customers obtain the highest value possible from their deployments of the software."

"We are delighted to have ESI as a Certified Training Partner", said Marc Petock, Director of Marketing for Tridium. "ESI provides Tridium with the opportunity to expand our training programs, and we can increase the opportunities for users to gain greater proficiency on the Niagara platforms."

About Vykon

The Vykon suite of products and enterprise applications are powered by the Niagara Framework and integrate building automation, energy and security to the enterprise. Vykon enable facilities managers, building owners, energy service companies, and systems integrators to integrate proprietary and otherwise incompatible products into a unified enterprise solution. This allows personnel using a standard web browser to measure, manage and control a wide variety of facilities, security, and energy applications from anywhere in the world.

Vykon solutions are available worldwide through a network of distributors, systems integrators and value-added resellers. For a complete listing, please refer to www.tridium.com/how2buy/vsi.asp.
