

FUTURE-PROOF YOUR  
BUILDING AUTOMATION

# Jace® 9000

## License Transfer Promotion

**PROMOTION:**  
**AVAILABLE UNTIL**  
**JUNE 27, 2026**

### FUTURE-PROOF YOUR BUILDING AUTOMATION: TRANSFER YOUR JACE® 8000 LICENSE TO A JACE® 9000

As the building automation landscape evolves, so should your technology. We're excited to announce a limited-time license transfer promotion that allows you to move your Niagara Framework® software license from a JACE 8000 to the new, high-performance JACE® 9000. In other words, if you act during this promotion, you can **swap a JACE 8000 license for a JACE 9000 license by paying just a license-transfer fee, instead of the full cost for a new JACE 9000 license.**

This promotion is designed to help you seamlessly transition to the next generation of Niagara hardware, ensuring your systems are ready for the future including the upcoming Niagara 5 release, expected in 2026. (Note: JACE 8000 will not support Niagara 5)

#### WHY UPGRADE TO JACE 9000?

The JACE 9000 is engineered for the future of smart building control:

- **Enhanced Performance:** Faster processing and improved memory for more demanding applications.
- **Stronger Security:** Built with the latest cybersecurity standards to protect your building data.
- **Future Compatibility:** Fully compatible with Niagara 5, ensuring long-term support and innovation.
- **Seamless Migration:** Transfer your existing license and configurations with minimal disruption.

#### MAXIMIZE YOUR SMA VALUE

Your active SMA already gives you access to the latest Niagara Framework® releases. Now, it also unlocks the ability to carry your license forward to the JACE 9000 - ensuring you stay current, secure, and ready for what's next.

#### ELIGIBILITY, TERMS & CONDITIONS

##### ELIGIBLE HARDWARE

- Only JACE 8000 and JACE 834 models are eligible

##### ACTIVE SMA REQUIRED

- JACE 8000 must have an active Software Maintenance Agreement (SMA) at the time of license transfer

##### OTHER REQUIREMENTS

- **New Hardware Purchase:** You must purchase and have in stock an unlicensed JACE 9000 controller and SD card to complete the transfer
- **Transfer Fee:** A license transfer fee applies for each transaction (part number: LIC-CHG-UPG)

#### READY TO UPGRADE?

**Contact your  
authorized Niagara  
partner to learn more  
and start your license  
transfer today!**
