FSG - Smart Buildings

Challenges

- Savings opportunities in the car waMonitor, control, alarm, and respond
- Biggest concern freezing equipment leads to loss of revenue & damaged equip
- Control heat and lighting
- Alarm when equipment is endangered
- System cost is a big consideration
- Proactively notify when systems are not working as intended

Project Execution

- Use hardened solutions for C-store challenges in this car wash application
- Distributed Control is critical. System must be able to function stand alone.
- Fast, easy to scale deployment
- Control heat and lighting
- 24/7 monitoring and notification on anything that threatens car wash security, equipment health or effective operations.

Outcomes Achieved

- Met the customer need for an affordable, scalable control solution.
- Distributed control ensures the system works with or without connectivity
- Car wash added to existing store's BAS interface, FSG's Chariot dashboard
- Notification of issues before they become problems that could force closure & loss of revenue through FSG's 24/7 Customer Support Center
- Developed a new core product for FSG Smart Buildings, the Clarity Agile Connect, suitable for facilities with smaller footprints and less equipment.
- Sopens new opportunities for small and micro box retail that have been underserved by BAS vendors due to system cost and ROI requirements

How can this be packaged and commercialized?

• Clarity Agile Connect

Beyond Buildings

Benton County

US county in Indiana

Benton County is located in the northwest part of the U.S. state of Indiana, along the border with Illinois. As of 2010, the county's population was 8,854. It contains six incorporated towns as well as several small unincorporated settlements: it is divided into 11 townships which provide local services. Wikipedia

Area: 407 mi²

Founded: 1840

Population: 8,714 (2021)

Unemployment rate: 2.6% (Nov 2022)

Largest city: Fowler

Congressional district: 4th

Cities: Fowler, Oxford, Earl Park, Boswell, Ambia, Templeton.

Chase

Program Highlights

- Federal grant to increase availability or high-quality broadband to homes, farms and Community Anchor Institutions
- Monies have been allocated projects starting now
- Money for Community Development, health care and climate smart Infrastructure

Project Partners

Workforce Development and Expansion

Veea

We are the creators of an extensive, adaptive, flexible, and scalable Edge Computing Ecosystem – and we work with our partners to develop and deliver smart solutions tailored for the next age of connectivity.

Americrew & National Warrior Workforce

National Warrior Workforce provides industry approved and in-demand training and job placement for our nation's veterans and transitioning service members for a career in 5G wireless, fiber broadband, and clean energy infrastructure. Americrew employs NW2 for nationwide apprenticeships based on 12 planned regional centers.

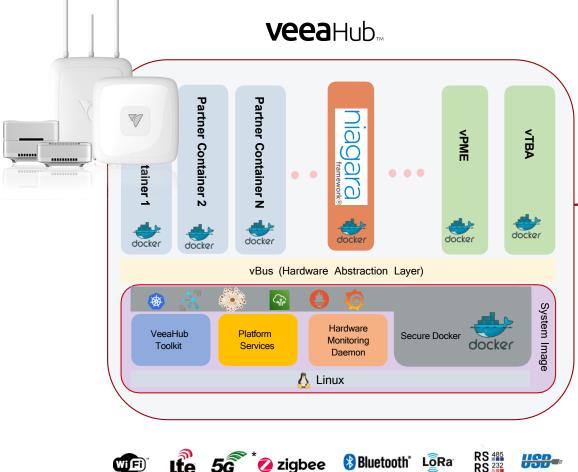

QBS Learning

 QBS is a leading provider of content and curriculum development, creative services, and digital and design excellence. QBS is the trusted, go-to partner by premier traditional and EdTech publishers.

Veea Edge Platform & Containerized Niagara

- Patent Pending Secure Docker Container System
- vMesh Highly extensible device connectivity (wired and wireless) and application mesh
- vBus Hardware Abstraction Layer Enable devices (IP and non-IP) to securely connect to containers distributed across vMesh
- veeaCloud Orchestration and Management, Remote Management of VeeaHubs & Niagara

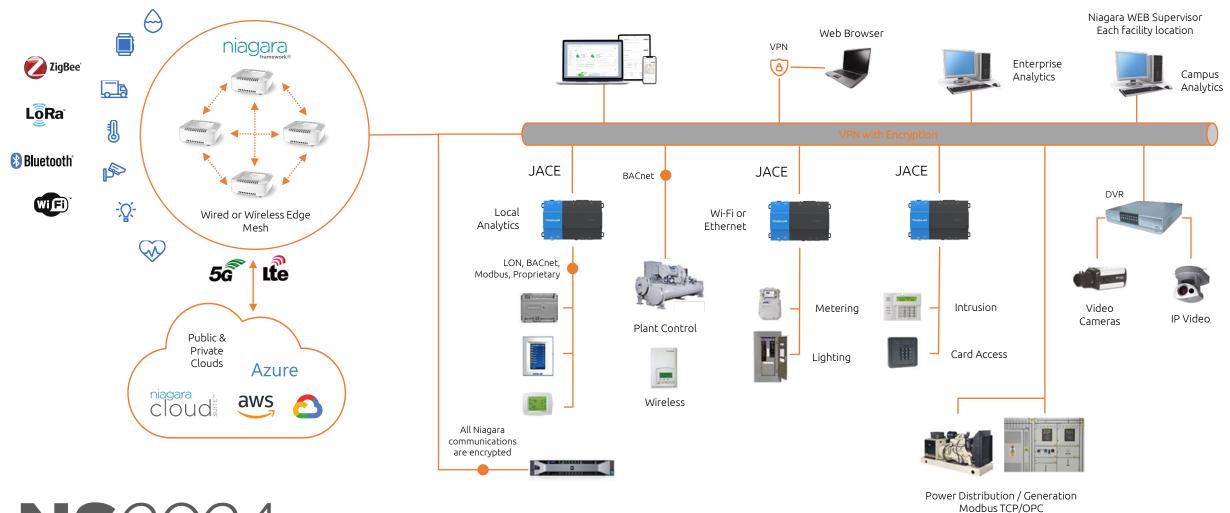

Veea / Local BMS Solution Integration

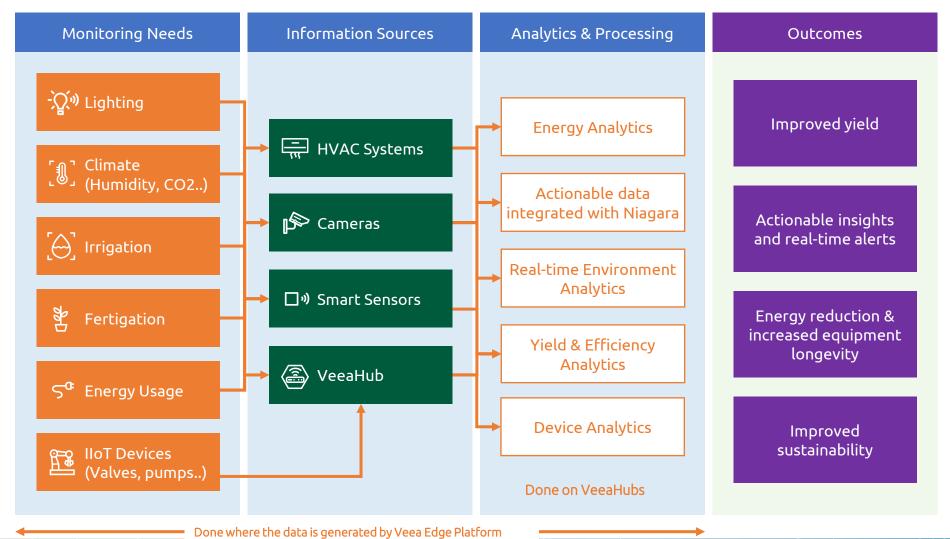

Example Deployment: Climate Smart Agriculture

Climate Smart
Agriculture has more
connected devices,
gathering more data,
resulting into more
insights and
continuous
improvement of yield,
efficiency,
sustainability and
quality of life.

Beyond Buildings
