
LINKSPER

Introduction to the Independent Data Layer

Version 1

VAYANDATA

Niagara Developer for >10 years

Appliance Architect for multi-sites

Specialized on tasks automations and data structuration

Toolbox for Niagara

Active Toolset

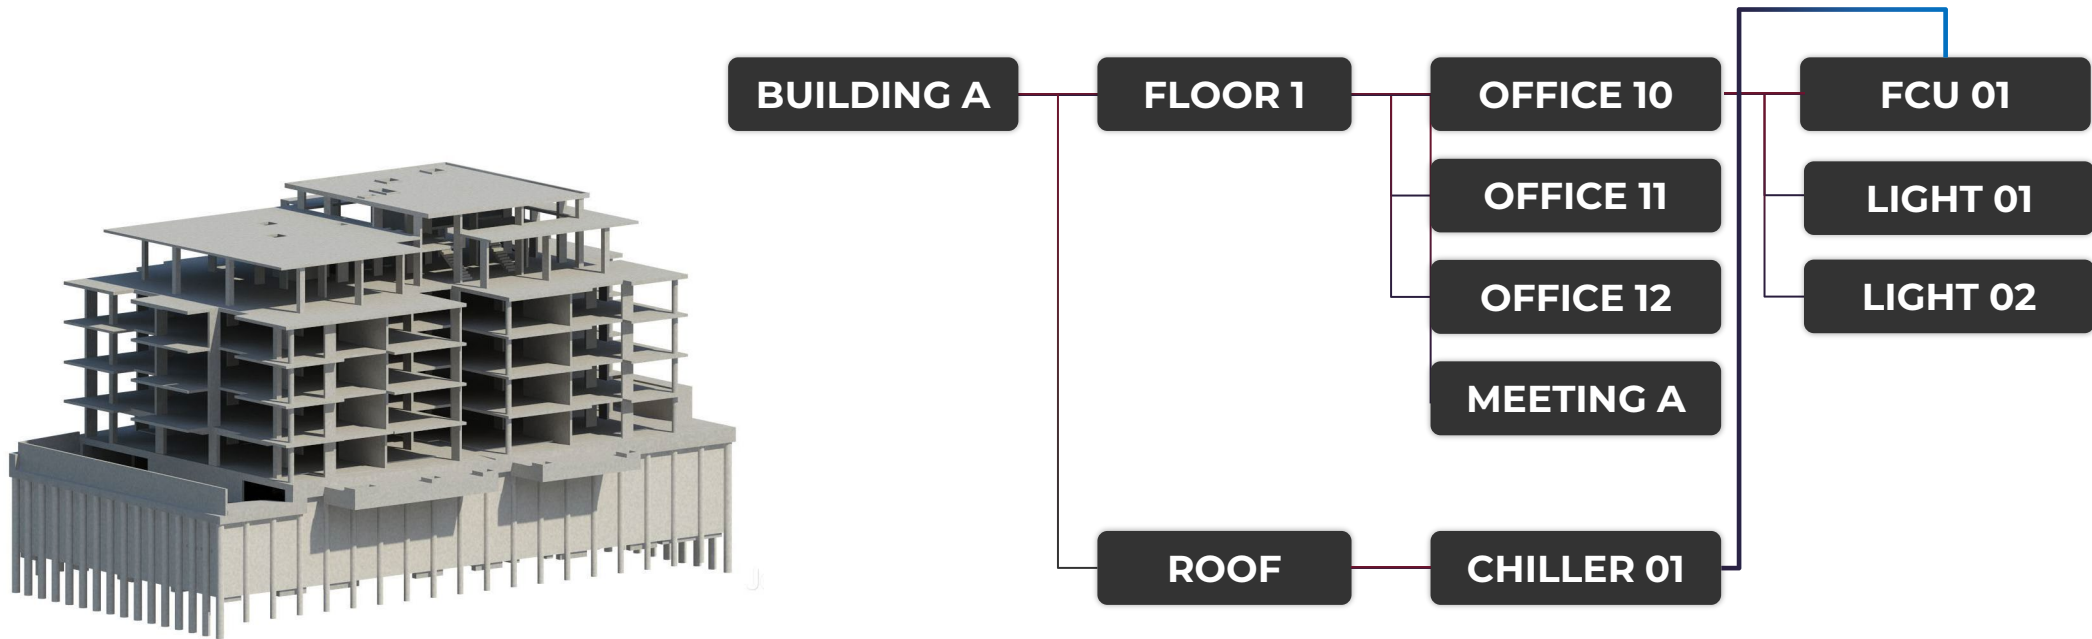

Independent Data Layer

LINKSPER

Data Modeling

Creating Digital Models

BOS Apps

Console

Explore and monitor BOS data

IoT Manager

Monitor and onboard new IoT devices

Supervision

Control and monitoring building's equipment

Dashboards

Explore energy and zone dashboards

Bookings

Manage meeting rooms reservations

Performance monitoring

Monitor Center and Hub instances in real-time

Fiix CMMS

Maintenance Management Software

écowatt

EcoWatt

Electricity weather forecast

| Equipment Integration

How to scale integration while structuring Data?

Easy integration at scale

LINKSPER
