TRIDIUM PROFESSIONAL SERVICES

Your Framework for Innovation

Tridium Professional Services is your source for knowledge and expertise of the Niagara Framework®.

Simply put, we exist to help our customers and their customers be as effective as possible using Niagara.

As the global services and support arm of Tridium, we have a unique depth of proprietary knowledge in Niagara. Our expert guidance allows you to work faster, mitigate risk and turn around successful implementations for your customers.

The Internet of Things is giving rise to new opportunities for the Niagara platform. Through Tridium Professional Services, we are reaffirming our commitment to Building Automation Systems while inviting developers and integrators to enter into adjacent markets with us—from data centers to smart cities and beyond.

Tridium Professional Services is made up of:

DEVELOPMENT AND IMPLEMENTATION

We work as a trusted resource on your projects, helping you build scalable, secure software solutions and accelerate time-to-market.

TRIDIUM UNIVERSITY

We provide a high level of intensive, world-class training and certification for developers and integrators at our state-of-the-art facility in Richmond, Virginia; at regional offices across the globe; or on-site at your office.

TECH SUPPORT

We are always a phone call away to help troubleshoot issues, provide guidance and recommend best practices as you build and launch applications on our framework.

Why Tridium Professional Services?

- You'll gain a trusted advisor that can help accelerate your product and market development initiatives
- You can speed your time-to-market while also reducing risk through our comprehensive services
- You'll strengthen your competitive advantage in the development and marketing of new Niagara-based solutions
- You'll benefit from direct access to the IT specialists and developers behind Niagara, offering unparalleled insight into the framework

Connect to Niagara Support through Tridium Professional Services

For more information on how your clients and your business can start benefiting from Tridium Professional Services, please contact us by calling **877.305.1745** or by emailing **ProfServices@tridium.com**.

Powering Possibilities

Tridium is the global leader in open platforms, application software frameworks, automation infrastructure technology, energy management and device-to-enterprise integration solutions. Our software frameworks and applications have fundamentally changed the way devices and systems connect, integrate and interoperate with each other and the enterprise.

From building control, facility management, industrial automation and energy information systems to smart homes, smart cities and smart services, Tridium's innovative platforms enable the building and management of complex monitoring, control and automation solutions, and empower manufacturers to develop products that can collaborate and communicate with the enterprise.

We are committed to leading the industry in creating smarter, safer and more efficient buildings and communities, bringing intelligence and connectivity to the network edge and back.
