

NEW PROGRAM FOR 2019

trade up to niagara enterprise security on JACE 8000

Introducing a new limited-time program for moving up to the most current version of Niagara Enterprise Security software on a new JACE® 8000. The 2019 Niagara Enterprise Security Trade-Up Program is your opportunity to replace legacy Security JACEs with the most advanced and cyber-secure Niagara bundle. This is the combination your customers need to successfully integrate cutting-edge access control, identity, video surveillance, intrusion and visitor management systems with other building automation services such as lighting, HVAC and energy management.

NIAGARA ENTERPRISE SECURITY TRADE-UP PROGRAM

From today through June 30, 2020, any customer with a Security JACE running an active security software license can trade it in for a bundle that includes:

- JACE-8000
- NC-8xxx
- SMA-8xxx-1YR-INIT
- SEC-J8-32 - Included as license transfer
- SEC-R2R

DISCOUNTS

- Security software licensing on JACE 8000 with 32 readers at no additional charge
- 20% discount on hardware/software

DETAILS

- No minimum quantity per order.
- Use promo code ACCESS when submitting orders
- Unbundled Security JACE hardware can qualify as long as customers can provide hostID/serial number of JACE in their stock.
- Licenses for Axis, Milestone, and Maxpro video drivers will be transferred to the new bundle. Obsolete video drivers are not transferable.

If you have any questions, please contact your Tridium account manager or Niagara partner. The program ends June 30, 2020. **We look forward to you benefiting from this new program this year!**

ELIGIBILITY, TERMS & CONDITIONS

- Applies to all brands of Security JACE 2 through Security JACE 6.
- Trade-ins will be accepted for all JACE brands that are actively selling Niagara 4 Enterprise Security. These brands include:
 - Vykon
 - Honeywell WEBs
 - Distech Controls
- Trade-ins of a Security JACE from an OEM that has discontinued selling Niagara Security are possible providing that the customer purchases the bundle from one of the three brands listed above. OEM requirements for product access may affect the ability to trade-in a Security JACE.
- Program ends June 30, 2020.
- The deactivated Security JACE must be removed from service within 6 months. Should such a disabled JACE be discovered installed after December 31, 2020, the OEM or Vykon VSD will be invoiced for the discount and a license change fee.
