MARKETPLACE ENHANCEMENTS

Niagara Marketplace Blog page is now available and will feature articles on different

topics such as IoT, information systems, BAS, products, and more. Check out the available blogs and bookmark the page to stay up to date on new blog posts.
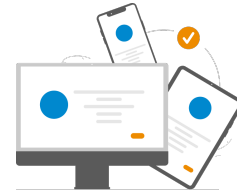

IMPORT YOUR LISTINGS

Have a big list of products to create? Don't worry! You can now import products by using a CSV template. Log in to the Niagara Marketplace to find out more!

ORDER EVENTS

Traceability has never been easier with the Order Events functionality. This feature allows you to see the different events logged within an order. Always know what is going on with your Niagara Marketplace orders.

IMPROVED SELLER STOREFRONT

Have you checked your storefront lately? It has improved! Now, your storefront not only shows your customizations, but also all your products and categories. Potentialize sales by promoting your Niagara Marketplace storefront.
